Project Description

The objective of this Technical Cooperation (TC) is to conduct a series of studies analyzing various sub-sectors of education in Suriname that will close existing data gaps and provide informed decision making and policy dialogue in the country. These studies will collect information as well as best practices in potential new areas of collaboration with MOESC where key information is missing: i) programs to improve school readiness among early learners, taking into consideration special education needs; ii) public private partnerships in education for the provision of education, especially in the interior; iii) career path and in-service teacher professional development; iv) diagnostic of education management and information systems; and v) contents, technology and pedagogical approaches in secondary school.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
