Project Description

The TC's objectives are two-fold; (i) to contribute to the improvement of public sector management in the Ministry of Finance by increasing the capacity and knowledge of the management team in the areas of leadership, communication, project and change management; and (ii) to improve the technical capacity of the executing agency to aid policy decision making at the leadership level of the organization. This TC aims to address some of the deficiencies of the management team of the DOTC, complementing the goals of the FISEG program, through the provision of expert mentorship, coaching to the senior management team of the DOTC and the development of technical studies in key areas to aid policy decision making at the leadership level of the organization.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
