IADB-SU-T1160

TC INTRA: Knowledge Exchange on the Public-Private partnerships for Urban Heritage

Project Description

The objective of this TC is twofold. On the one hand, it aims to increase the Government of Suriname, specifically members of the PURP PIU, knowledge regarding the design and implementation of urban heritage revitalization processes. This includes an in-depth study of the critical factors needed to successfully regenerate historic districts, as in Casco Antiguo, Panama, and Ciudad Colonial, Santo Domingo. On the other hand, the TC seeks to highlight the need for private sector participation, showcasing instruments, tools, knowledge, and lessons learned from the current implementation of the DR-L1084 Comprehensive Tourism and Urban Development Program for the Colonial City of Santo Domingo to help guide the Project Executing Unit of the Paramaribo Urban Rehabilitation Program in the implementation of the SU-L1046 and the design of a second phase operation.

ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
