Project Cost (USD)	\$ 0.25 million

IADB-SU-T1171

Support for the Design and Execution of Transport Projects in Suriname

Project Description

The objective is to support the preparation of a new program in the air transport sector (SU-L1071), as well as to support risk-mitigation activities of transport infrastructure projects currently financed by the IDB in Suriname by: (i) preparing all technical, and economic and socio-environmental inputs necessary for the development of a future investment program in the sector, (ii) deepening technical engineering analysis and strengthening and improving assessments and monitoring of environmental and social considerations of the projects.

ACCESS TO INFORMATION

You can submit a request for information disclosure at:

https://www.iadb.org/en/access-information/information-request.

ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
