## Project Description

The general objective of this Technical Cooperation (TC) is to promote the social and economic development of the rural villages in the Amazon Hinterland of Suriname by increasing access to affordable, reliable, clean and sustainable electricity, potable water, and communication services. The specific objectives of the TC are to: (i) support the technical and economic studies of solar mini-grids, water supply and telecommunication systems for the formulation of the Bio-economy empowerment in Suriname indigenous communities through access to Water, Energy, and Telecommunications (Bio SWEET), SU-L1076; (ii) support the environmental and social studies; (iii) support the first stage of execution of the operation; and (iv) support the dissemination of the best solutions for access to basic services and promotion of bio-economy in the amazon region.

## ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
