Sectors	Climate and Environment, Technical Cooperation, Water and Sanitation
Investment Type(s)	Advisory Services
Investment Amount (USD)	\$ 0.25 million
Project Cost (USD)	\$ 0.25 million

Project Description

The general objective of the TC is to improve Suriname's water and wastewater sector by enhancing governance, environmental sustainability, and resilience to climate risks. The specific objectives are to: (i) strengthen governance and legislative frameworks for the water and wastewater sectors by addressing fragmented governance, modernizing outdated laws, and promoting environmental sustainability, climate resilience, and cost recovery mechanisms; and (ii) enhance decision-making on resilient and sustainable stormwater and wastewater management in Paramaribo by identifying infrastructure needs and developing climate-resilient solutions.

ACCESS TO INFORMATION

You can submit a request for information disclosure at:

<https://www.iadb.org/en/access-information/information-request>.

-

ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
