Project Description

The objective of this TC is to support the implementation of two programs in the transport sector (SU-L1057 and SU-L1071) to ensure high-quality execution, efficiency and sustainability of interventions. By integrating social, environmental, and technical practices into construction activities, this TC aims to enhance the resilience of the programs ensuring that they contribute positively to the country's development while minimizing negative impacts on people and the environment. The TC will also support the hiring of high-level civil aviation legislation and technical experts to support the authorities in the updating of the country's legislation and regulations in the sector. Specific activities will include technical and socio-environmental support, as well as capacity building based on regional best practices.

ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
