Project Description

The objective of this Technical Cooperation (TC) is to support the Government of Suriname in enhancing the understanding of electricity subsidy systems and advancing the transition toward more efficient and better-targeted mechanisms. The TC will provide analytical inputs to inform policy, regulatory, and institutional frameworks, with the aim of improving the efficiency and equity of electricity supply, reducing sector inefficiencies and financial losses, and identifying conditions that support long-term sustainability and private sector participation.

ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
