Project Description

According to IADB website, the project aims to increase the efficiency, efficacy and equity of fiscal and policy management to address the health and economic crisis caused by coronavirus in a fiscally responsible manner. The specific objectives are: (i) to promote the availability and rapid execution of public resources to contain the emergency crisis provoked by COVID-19; (ii) To strengthen fiscal anticyclical policies through the introduction of temporal measures to protect the income of vulnerable households and the liquidity of firms throughout the Health and economic crisis; and, (iii) to promote the economic and fiscal recuperation in the post-pandemic period.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
