Borrower	Government of Trinidad and Tobago
Sectors	Law and Government
Investment Type(s)	Loan
Loan Amount (USD)	$ 42.00 million
Project Cost (USD)	$ 42.00 million

Project Description

According to the IADB, this programme will facilitate the digital transformation of Trinidad and Tobago by improving and expanding digital government architecture towards delivering more integrated, simpler and smarter digital public services. The Programme is structured to achieve two specific objectives to: (i) modernise and integrate state management information systems for digital service delivery to citizens and firms; and (ii) enhance the strategic and operational management capacity within the Ministry of Digital Transformation to implement and manage digital government reforms across the public sector.

The project document states that "at the request of the borrowing member country, the information contained in this document will not be disclosed."

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
