Project Cost (USD)	$ 1.49 million

Project Description

The project focuses on linking small scale growers with high value niche markets required for sustainability and growth of the cocoa sector in Trinidad and Tobago. The project seeks to equip growers with the skills and tools required for implementation of (a) quality certification (b) chain of custody and (c) branding that will facilitate premium pricing of cocoa and its value added products and improve market opportunities.

Investment Description

- Inter-American Development Bank (IADB)

The total cost of the Technical Cooperation project is US $ 1,491,183. US $ 751,893 will be paid by the Multilateral Investment Fund through the IADB, and US $ 739,290 will be country counterpart funds. The execution period will be 36 months and the disbursement period will be 42 months.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
