Support for the Preparation of Trinidad and Tobago Water Supply Improvement Program

Project Description

The objective of the TC is to support the Government of Trinidad and Tobago (GoRTT) in the preparation of the "Trinidad and Tobago Water Supply Improvement Program" (TT-L1055) through the contracting of consultancy services to prepare tender documents and technical studies. Specifically, the TC aims to finance: (i) specialized transaction advisory consultancy services for the preparation of tender package for the NRW reduction program, universal metering, conducting a preliminary baseline study, prepare hydraulic model, and other technical studies that will also support COVID-19 response activities, communication strategy and plan; (ii) prepare a Transformation road map and change management strategy and plan; and (iii) review and update studies, designs and prepare tender package for the Multi-Purpose Flood Mitigation and Water Supply Reservoir.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
