Borrower	Government of Trinidad and Tobago
Sectors	Industry and Trade, Law and Government, Technical Cooperation
Investment Type(s)	Advisory Services, Grant
Investment Amount (USD)	$ 0.20 million
Project Cost (USD)	$ 0.22 million

Project Description

The objective of this project is to strengthen Trinidad and Tobago's Intellectual Property (IP) ecosystem to support small, and medium enterprises (SMEs) in leveraging digital technologies to drive innovation, competitiveness and growth that contribute to sustainable environmental and economic recovery. This objective will be achieved through: (i) the design of valuation guidelines for IP assets in the digital economy, (ii) the design of mission-orientated policies for digital innovation, and (iii) the implementation of a dissemination and communication strategy.

Investment Description

- Inter-American Development Bank (IADB)

The country's counterpart amount to USD 25,000.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
