Project Cost (USD)	$ 0.50 million

Project Description

This Technical Cooperation (TC) aims to support the design of an urban regeneration initiative in the town of Arima in Trinidad & Tobago, centered on smart urban infrastructures to improve local economic activity, mobility and accessibility, and social interactions. Furthermore, this TC will support the execution of the Urban Regeneration Component of the Urban Upgrading and Revitalization Program (TT-L1056), approved by the IDB Board in June 2020, which became fully eligible in April 2021.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
