Strengthening Integrated Coastal Zone Management (ICZM) Public Policy and Governance in Trinidad and Tobago

Project Description

The objective of this TC is to support the strengthening of Integrated Coastal Zone Management (ICZM) governance in Trinidad and Tobago as an implementation vehicle for public policies that balance natural resource management and sustainable coastal development. To this end, this TC analyzes the current status of its governance, identifies medium- and long-term priorities for its strengthening, and partially supports the development of policy instruments for its improvement.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
