Investment Type(s)	Advisory Services
Investment Amount (USD)	$ 0.16 million
Project Cost (USD)	$ 0.16 million

Project Description

According to the IADB, the TC aims to support the Government of the Republic of Trinidad and Tobago in the successful implementation of the NDTS. The specific objectives of this TC are to: (i) support the MDT in defining selectivity criteria such as potential impact, current level of digitization, and sustainability of partners' digital transformation initiatives. Together with the MDT, these criteria will shape a prioritization strategy that complements the existing Digital Transformation Toolkit.1; and (ii) promote partnerships with academia and private sector to benefit from the interventions carried out by the ministry, particularly those related to open data.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
