Investment Type(s)	Advisory Services
Investment Amount (USD)	$ 0.02 million
Project Cost (USD)	$ 0.02 million

Knowledge Exchange between Uruguay and Trinidad and Tobago to Strengthen Digital Transformation in Education

Project Description

According to the IADB, the objective of the technical cooperation is to contribute to the institutional strengthening of the Ministry of Education of Trinidad and Tobago through the exchange of experiences, knowledge, and learnings based on the experience of Ceibal in Uruguay. In particular, this study tour is expected to provide participants with firsthand insights into the practices of Uruguay's implementation of a large-scale digital education program. The insights gained will be used to ensure that proposed digital education solutions are tailored to Trinidad and Tobago's socio-economic context in order to inform and strengthen the digital education initiatives in Trinidad and Tobago.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
