Project Description

The overall objective of the program is to reduce the amount of violent crimes against property (particularly robberies) and against persons (particularly domestic and youth violence) in Uruguay. Specific objectives are: (i) reduce the rate of robberies in Montevideo; and (ii) reduce the rate of domestic violence (partner) and youth (for and against youth) in two pilots in highly vulnerable neighborhoods in Montevideo (Marconi and Casavalle).

The program will have three components. Component 1: Targeted policing strategies for crime prevention. Component 2: Comprehensive crime prevention in highly vulnerable neighborhoods. Component 3: Promotion of the use of scientific evidence in policy-making.

No adverse environmental or social impacts are expected by the IADB. In accordance with the Environment and Safeguards Compliance Policy, the program has been classified as a category “C” operation.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
