**Project Description**

The aim of the project is to improve the competitiveness of agricultural producers in Uruguay. The overall objective of it is to improve the services provided by MGAP (ministry for agriculture) and to continue the changes initiated in improving the management of MGAP for the benefit of producers. The specific objectives will be: i) To deepen the development of Electronic Government and to strengthen the operational management of MGAP; and ii) To continue strengthening the management of food safety, health barriers and laboratory waste management. The operation will build on the actions aimed at strengthening the management of the MGAP carried out by the Support Program for Public Agricultural Management (PAGPA - UR-L1016)

ACCOUNTABILITY MECHANISM OF IDB/ IIC

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
