Program to Support Policy Reform in Water Resources and Solid Waste II

Project Description

The overall objective of the Program is to contribute to Uruguay's water security and environmental sustainability through a focus on circularity, adaptation, and mitigation of climate change (CC). The specific objectives are: (i) to improve water resources (WR) management and the quality of water services by increasing resilience to extreme events; and (ii) to strengthen solid waste (SW) management with a circular economy approach.

ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
