IADB-UR-T1147

Assistance to Uruguayan population affected by the Uruguay river flooding

Quick Facts

Countries	Uruguay
Financial Institutions	Inter-American Development Bank (IADB)
Status	Completed
Bank Risk Rating	U
Voting Date	2016-03-16
Investment Type(s)	Advisory Services
Investment Amount (USD)	$ 0.20 million
Project Cost (USD)	$ 0.20 million

Project Description

The objective of the operation is to support the Government of Uruguay in providing assitance to the population of north Uruguay affected by the flooding of the Uruguay River, including actions to combat epidemiological risks caused by the flood. In the departaments of Salto, Paysandu, Artigas and Rivera more than 25.000 inhabitants were evacuated as a consequence of the floods.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
