Project Description

According to IADB website, the project aims to develop studies to ensure the provision of potable water services with excellence and efficiency to 2045 on the Gold Coast, meeting the emerging needs of the expected population growth during that period. Within this framework, this TC will identify interventions to optimize the provision of services, which will positively impact the area in the short term. It's of fundamental importance to design a long-term Strategic Action Plan in view of the magnitude of the challenges that the supply of drinking water represents for the Balnearia de Canelones area and Uruguay.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
