# High Touch High Tech: Teachers and Artificial Intelligence building an enhanced response to COVID emergency by fostering knowledge and skills

## Project Description

The objectives of this Technical Cooperation are: i) to support CEIBAL's educational response to the immediate and medium challenges arousing from the COVID 19 pandemic, ii) to develop and implement innovative pedagogical approach with tele-edu technology for mathematics and computational thinking, using High Touch-High Tech (HT-HT) strategies, iii) to generate evidence about the results and impact of HT-HT strategies both in math learning outcomes and computational thinking skills; and to generate operational knowledge about the implementation of both pilots.

**Investment Description**

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
