Support for the restructuring of the passenger transport system of the Montevideo metropolitan area

Project Description

The objective is to support the Ministry of Transportation and Public Works (MTOP) in improving the regulation of the metropolitan passenger transportation system, in order to achieve operational efficiency, economic sustainability, equity of access and mitigation of the effects of climate change. Specifically, the aim will be to improve the information available to the regulator regarding the supply and demand of services, efficiency in the design of lines and frequencies, and efficiency in the management of provider companies. Based on the diagnosis generated with the information gathered, we will seek to generate alternatives for change in the design of lines and frequencies, bus technology, charging systems, and remuneration criteria for operators, in pursuit of the aforementioned policy objectives. Finally, we will seek to improve the permanent information gathering systems that will allow the regulator to reduce the asymmetry of information with the operators and improve its capacity to induce an efficient operation of the regulated market.

ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
