Project Description

The objective of this Technical Cooperation is to support the Municipality of Montevideo (Intendencia de Montevideo, IdM) in addressing technical and institutional gaps to enhance the efficiency and sustainability of sanitation and drainage interventions in Montevideo. This includes improving processes, strengthening the use of information for decision-making, and fostering interinstitutional coordination. In addition, the Technical Cooperation will complement the Program's investments by providing flexibility for the development of solutions and institutional strengthening activities.

ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
