Borrower	Government of Uruguay
Sectors	Technical Cooperation
Investment Type(s)	Advisory Services
Investment Amount (USD)	\$ 0.13 million
Project Cost (USD)	\$ 0.13 million

Project Description

According to the IADB, the objective of this Technical Cooperation is to strengthen the capacities of public security institutions and the criminal justice system in Uruguay to design, implement, and manage evidence-based security policies aimed at effectively addressing organized crime and emerging criminal dynamics. Specifically, it will support the strengthening of planning, management, monitoring, and implementation tools for citizen security and criminal justice policies, particularly through supporting the Ministry of the Interior (MDI) in the implementation of the National Public Security Plan (PNSP) and the institutional strengthening of the National Prosecution Office (FGN). This includes the development of capacity diagnostics, the formulation of strategic strengthening plans, the design of monitoring and evaluation mechanisms, and the generation of technical inputs to support evidence-based decision-making. Through these actions, the Technical Cooperation seeks to contribute to a more integrated, strategic, and sustainable institutional response to an increasingly complex criminal landscape, promoting interinstitutional coordination and strengthening the State's capacity to prevent, investigate, and prosecute organized crime and other forms of violence affecting public security in Uruguay.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
