Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	C
Borrower	Government of Venezuela
Sectors	Education and Health, Water and Sanitation
Investment Type(s)	Grant
Investment Amount (USD)	\$ 1.90 million
Project Cost (USD)	\$ 1.90 million

Project Description

According to the Bank's website, the objective of this pilot program is to design and implement interventions to guarantee the supply of drinking water in hospitals and priority health centers in Venezuela. The strategic objectives of the program are: i) to develop improvement alternatives for the provision of water in hospitals and health centers, which must respond to the particularities of the state of the current infrastructure of both the health center and the water supply system , including availability of water sources; ii) implement these interventions in prioritized hospitals and health centers, and; iii) generate the operation and maintenance capacities of the implemented systems to guarantee the sustainability of the interventions.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
