# Support to promote export development and Foreign Direct Investment as engines for the sustainable economic recovery of Venezuela

## Project Description

The objective of this TC is to position productive and export development and foreign direct investment (FDI) as engines of sustainable economic recovery in Venezuela. This objective will be achieved by providing technical assistance to: (i) design instruments to strengthen the productive and export capacities of micro, small, and medium-sized enterprises (MSMEs) so that they can participate in regional markets; and (ii) strengthen the institutional architecture to improve the business environment for the productive sector, exporters, and investors.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
