## Project Description

According to the bank "The Inter-American Investment Corporation (IDB Invest) is considering an investment of up to US\$150 million (in BRL equivalent) through the subscription of quotas of an investment fund in Brazil (the "Fund"). IDB Invest's participation will allow the fund to reach the necessary scale to effectively execute its investment strategy and reach its minimum size.

The Fund will invest in debt instruments to support infrastructure and energy projects and promote capital market solutions. The fund manager of the Fund will be a local investment management company with extensive experience in the local market.

The Fund will support the country's effort to speed up the development of infrastructure and energy projects; mobilizing resources from institutional investors to long-term local currency financing for infrastructure projects and promoting the development of the local capital markets through the issuance of infrastructure debentures."

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
