Investment Amount (USD)	\$ 110.00 million

Project Description

The company Transportadora de Energía de Centroamérica S.A. ("TRECSA", the "Company" or the "Client"), a subsidiary of Grupo Energía Bogotá ("GEB") of Colombia, is building the PET-01-2009 Project (the "Project") in Guatemala. The Project, which is part of the Expansion Plan of the Transportation System ("PET") in Guatemala, consists of the construction and maintenance of 783 km of electric power transmission lines ("LT") at 230 kV and 11 new transformer substations ("SE"); and in the expansion of 12 existing substations. The Project is organized into six lots (the "Lots"): i) Lot A (Pacific Metro Ring), located in the departments of Guatemala, Escuintla, Sacatepéquez and Santa Rosa; ii) Block B (Hydraulic Ring), located in the departments of Huehuetenango and Quiché; iii) Block C (Atlantic Ring), located in the departments of Zacapa and Izabal; iv) Block D (Atlantic Ring), located in the departments of Izabal, Alta and Baja Verapaz; v) Block E (Hydraulic and Atlantic Ring), located in the departments of Alta Verapaz, Baja Verapaz and El Progreso; and vi) Block F (Western Ring), located in the departments of Chimaltenango, Sacatepéquez, Guatemala, Sololá, Suchitepéquez and Retalhuleu. Construction of the Project began in May 2010 and as of December 31, 2020, it is 86.62% complete.
