Project Description

This transaction consists of a senior long-term loan of up to US$300 million to ENGIE Energía Perú S.A. (the “Client”, the “Company” or “EEP”), mainly to finance the construction of the "Punta Lomitas" wind farm (which includes, among others, a weather station, a control building, and the internal accesses to the wind farm), located in the districts of Ocucaje and Santiago, in the province and region of Ica, Peru, as well as its interconnection to the National Interconnected Electric System ("the Project"). The energy generated by the Project will be delivered to the Punta Lomitas substation (SS) through a 60.2 km long transmission line (TL) with a voltage of 220 kilovolts (kV), and then to a bypass substation that will be connected to the existing 220 kV Ica - Marcona TL (L-2211), owned by Red de Energía del Perú S.A. (REP).

ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
