Project Description

According to the Bank's website, the proposed financing consists of a facility in which IDB Invest offers the Borrower Exponencial Confirming, as an obligor through a Trust, an uncommitted revolving credit facility. Through this facility, IDB Invest will make a series of disbursements for a capital amount of up to COP\$200 thousand million (approximately USD50 million). The objective is to facilitate access to liquidity at competitive prices for suppliers of larger anchor companies (eligible debtors). The final beneficiaries will primarily be micro, small, and medium companies ("MSMEs") that sell their products and services to eligible debtors, who are the ultimate payers of the invoices.

Exponencial Confirming as Trustor will use the credits to carry out confirming operations which consist of the purchase of invoices issued by eligible suppliers, mostly MSME companies to facilitate access to immediate liquidity before maturity. Once these invoices have been acquired, the Trust will receive payment of the invoices from the eligible debtor that will be previously approved in the IDB Invest risk area.

ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
