UCB: Increasing battery production capacity in Brazil

Project Description

According to the IDB Invest, the transaction includes a financing package with a US\$ 25 million long-term loan and a US\$ 10 million revolving import credit line to support the company's investment plan and growth. The project will fund capacity expansion for battery production in Manaus and Extrema, Brazil, including a new and expanded BESS production line, acquisition of electric mobility and telecom equipment, automation upgrades in Manaus, a new LFP production line, and the construction of a battery plant for electric and hybrid vehicles. The objective is to increase and diversify value-added production, boost supply chain growth, create formal jobs, and provide energy storage solutions benefiting the Amazon region.

ACCESS TO INFORMATION

You can submit a request for information disclosure at:

https://www.idbinvest.org/en/access-information-policy.

ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
