Project Cost (USD)	\$ 11.99 million

Project Description

Founded in 1999 and headquartered in Panama and Costa Rica, Corporacion de Viajes Mundiales S.A., operating under the brand Namu Travel Group, has established itself as a leading travel company with a strong presence primarily in Central America. Positioning itself as a leader in the travel sector, Namu specializes in creating tailor-made programs and itineraries that offer unique and enriching experiences for its clients, who mainly come from the United States and Europe--fostering a distinctive connection with the region.

The group has built close relationships with over a hundred suppliers, most of which are small boutique hotels, tour operators, and tourist transportation providers--many of them classified as Small and Medium-Sized Enterprises (SMEs).

The transaction involves the provision of a working capital loan of up to US\$9 million, with a term of up to 540 days, available over a period of 3.5 years, and renewable for an additional term. The objective is to channel funds to these SME suppliers through a pre-purchase program for hotel nights or tourism experiences, effectively improving the operating capital and cash availability of these service providers. Most of these Eligible Suppliers are classified as Small and Medium-Sized Enterprises (SMEs).

In addition, a long-term credit line of up to US\$3 million will be included, with a term of up to 3.5 years, renewable, aimed at financing investments in capital and technology that will support the growth and development of Namu Travel Group, enabling its expansion across Latin America and the Caribbean.

SMEs play a vital role in the tourism industry, generating a significant share of employment in the sector. However, they face various challenges that can affect their competitiveness and financial sustainability, such as limited access to financing and capital. Through Namu's pre-purchase program, these SMEs will gain access to advance cash flows that will allow them to strengthen their financial solvency and implement necessary operational improvements--such as facility upgrades, new equipment acquisition, and employee retention during the low season--ultimately enhancing their business resilience.

ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
