Project Description

According to the IDB Invest, the proposed transaction consists of an uncommitted regional Supply Chain Finance facility of up to US$100 million (the "Facility") to support the working capital needs of Jaboneria Wilson S.A. ("Jaboneria Wilson" or the "Company"), a subsidiary of Alicorp S.A.A. ("Alicorp"), one of Latin America's leading consumer goods groups. Alicorp will act as guarantor of the obligations under the Facility. Jaboneria Wilson is one of Ecuador's leading manufacturers of cleaning and personal care products, with more than eight decades of experience in the market. Under this structure, IDB Invest will purchase or discount accounts receivable arising from the sale of inputs and packaging materials by eligible suppliers to Jaboneria Wilson.

The transaction seeks to strengthen the Company's working capital management and supply chain efficiency, while improving its suppliers' access to liquidity and short-term financing, the majority of which are local. Additionally, the transaction will contribute to strengthening commercial relationships throughout the supply chain and support the maintenance of formal employment within Ecuador's domestic production chain.
