Project Description

The Company operates in 5 Indian States across 71 districts through 298 branches and has a borrower base of around 1.2 million woman borrowers, a loan portfolio of INR1,800 million (approximately US\$272 million equivalent). It is the 6th largest MFI (in terms of gross loans) in India as of December 2015. IFC’s proposed investment will help Grameen Koota to diversify its sources of funding and to expand the outreach of access to microfinance to borrowers who have little or no access to formal sources of financing.

People Affected By This Project

1. Access to Microfinance: This project will support the Company in expanding the outreach of access to microfinance to borrowers, especially low-income households, who have little or no access to formal sources of financing.
2. Balanced growth of Microfinance: This investment will promote a more balanced growth of microfinance in India. Grameen Koota's operations are expanding in western and central India where MFI penetration has historically been low.
