## Project Description

This project provides a risk guarantee to BLC Bank. With this guarantee, the project aims to encourage the bank to loan to small and medium sized businesses across Lebanon.

---

## People Affected By This Project

The proposed project is expected to have the following development impact:

- (i) Enhance access to finance to underserved segments of the SME sector, such as women entrepreneurs and very small enterprises, thus enabling them to grow and expand their business and continue to play a key role in supporting Lebanon's economic growth and job creation;
- (ii) Support a local bank to maintain and expand its SME business market share. This is especially critical at this juncture given the uncertainties in the region and the economic slowdown in MENA and Europe, which is affecting Lebanon;
- (iii) Attract private sector investment flows and promote SME finance as a viable asset class; and
- (iv) Support the Bank in scaling up the SME sector especially small businesses, including very small and women-owned enterprises businesses, and to anchor its position in the market.
