Project Description

This project provides funds to BANCO DE LAS MICROFINANZAS BANCAMIA S.A., a Colombian bank specializing in financing to rural areas. Specifically, the funds will go towards micro-financing of small and medium sized enterprises in rural Colombia.

People Affected By This Project

The development impact of the project is expected to be high as IFC's investment will enhance Bancamia's ability to support productive micro-enterprises which will in turn stimulate growth, employment generation and poverty reduction. Additionally, the Bank will be able to increase its outreach and sustainability by incorporating new entrepreneurs into Colombia's formal financial sector. Bancamia is committed to targeting the bottom of the pyramid, as evidenced by its low US\$1,160 average loan size. With IFC's support, the Bank should be able to directly reach more than 100,000 individual micro-entrepreneurs.
