Project Description

IFC intends to partner with KCB Bank Rwanda Ltd. (KCB Rwanda) in Rwanda to finance farmer cooperatives who supply food commodities to World Food Programme (WFP) or its Patient Procurement Platform (PPP) off-takers. Financing to farmers will be used for seasonal working capital needs such as input costs (seeds, fertilizers, etc), land preparation, weeding and harvesting. Approximately 25,000 smallholder farmers are expected to benefit from this initiative through higher productivity levels, better crop quality, and lower post-harvest losses, and therefore higher and more stable revenue stream. The proposed financing package will be supported by the Private Sector Window of the Global Agriculture and Food Security Program (GAFSP).
