Project Description

The project aims at supporting the growth of MicroCred Cote d'Ivoire, a successful early-stage microfinance institution incorporated in Cote d'Ivoire in October 2010. The company, sponsored by MicroCred Holding, a leading network of seven microfinance institutions in China and Africa, expects to expand its reach both in Abidjan and Bouake. The expected impacts of the project are; a) Access to finance for micro, small and medium enterprises; b) help create a standard-bearer for the poorly performing microfinance sector in Cote d'Ivoire - expected to demonstrate that commercial MFIs subject to unfavorable regulation in a post-conflict environment can be sustainable c) reshape local banks' perception of the viability of MFIs, potentially convincing hesitant lenders of the sustainability of institutions like MCCI.
