Project Description

The proposed investment is a loan to support the development and operation of a greenfield bulk terminal in the Yangon region of Myanmar (the Project or the Terminal). The Terminal will have an effective capacity of 1 million metric tons (MT) and will include a jetty (230m) and an onshore complex with 40,000 MT of silos and 20,000 MT of grain warehouses. The Terminal will be operated under a 50-year Land Lease Agreement which includes built-operate-transfer type concession terms with the Myanmar Port Authority. The Terminal will primarily serve captive demand of agri commodities of Lluvia Limited (Lluvia) in addition to third party demand.

The Terminal will be built on Plot number 30 and 31 in the Thilawa Port Zone (TPZ). The approximately 8 km long TPZ is located on the eastern bank of Yangon River in the Kyauktan Township. TPZ is located roughly 16 kilometers downstream from the Yangon city port area and approximately 35 kilometers from the city by road.

ACCOUNTABILITY MECHANISM OF IFC

The Compliance Advisor Ombudsman (CAO) is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an IFC or MIGA- financed project. If you submit a complaint to the CAO, they may assist you in resolving a dispute with the company and/or investigate to assess whether the IFC is following its own policies and procedures for preventing harm to people or the environment. If you want to submit a complaint electronically, you can email the CAO at CAO@worldbankgroup.org. You can learn more about the CAO and how to file a complaint at <http://www.cao-ombudsman.org/>
