Project Description

The proposed project entails IFC's additional equity investment of up to RMB160 million (US\$25 million equivalent) in CFPA Microfinance Management Co., Ltd. ("CFPA MF", the "Company").

CFPA MF is a leading microfinance company dedicated to rural finance. IFC is an existing shareholder of the Company and also provided a RMB equivalent US\$20 million five year senior loan to CFPA MF. Successfully transformed from a poverty alleviation project, the Company has experienced substantial growth with geographic expansion to 166 counties in 17 provinces, and with deep outreach to 306,101 active customers. By 2015, the outstanding portfolio of CFPA MF reached RMB2.6 billion (US\$400 million), representing a five year CAGR of 46.3%. Given its proven track record and demonstrated development impact, IFC would like to continue to support the Company for future expansion.

Expected development impact

1. Promoting financial inclusion: IFC's investment will strengthen the capital of CFPA MF, enable it to leverage more resources and funding to support the geographic and portfolio expansion of the Company.
2. Creating opportunities for disadvantaged groups: As 97% of CFPA MF's customers are rural households with at most a middle school education, and over 90% of them are women, IFC's investment in CFPA MF promote financial inclusion for disadvantaged groups who are underserved and not covered by traditional financial institutions.
