People Affected By This Project

(i) Address funding gap for seed stage investments: Flat6Labs Cairo will support approximately 100 early stage companies, helping to fill the void of early stage capital. More broadly, IFC would like to help build and support local, sustainable ecosystems for entrepreneurship and venture capital. (ii) Support local entrepreneurship: Through its bootcamp, acceleration cycles, and various internal and external events, Flat6Labs Cairo will help support entrepreneurship. Over the investment period, Flat6Labs Cairo hopes to mentor 300 founders/entrepreneurs. (iii) Job Creation: From the approximately 100 companies supported through the accelerator, Flat6Labs Cairo expects those that are able to successfully raise follow-on funding to directly and indirectly create 1,500 new jobs.
