This Project consists of subscribing senior bonds to Bancompartir (the “Bank”) for up to COP 50,000 million (approximately US\$16.5 million), to support the growth of the Bank’s microenterprise loan portfolio. IFC’s financial support and mobilization efforts should send a positive signal to the market, as it would provide medium-to-long term financing through a bond issuance aimed at targeted institutional investors, ultimately deepening financial and capital markets in Colombia.
