Project Description

According to IFC website, the project consists of a proposed loan of up to US\$10 million to Banco Delta S.A. The loan will be used to finance the growth of the microfinance and small enterprise portfolio of the Bank. Further, IFC's loan will help increase financing available to micro and small companies in Panama and stimulate the growth of these businesses. This will contribute to the creation of new jobs in the micro and small sector, which typically provide the majority of employment opportunities in developing countries. Through this loan, IFC will support the transition of micro and small enterprises to the formal sector, as the ability to access credit is one of the main incentives to become formal.
