For this purpose, Itaú and IFC will be co-investors in a special purpose vehicle ("SPV"). Recovery do Brasil Consultoria S.A. (the "Company" or "Recovery"), market leader in asset resolution, will service the Portfolios acquired.

## **People Affected By This Project**

- Economic Development. The Project will continue to support the development of the non-performing loans or distressed assets market in Brazil. So far, IFC's DARP investments through the existing platform have (i) allowed Brazilian banks to offload in excess of BRL30 billion face value non-performing loans or distressed assets, and (ii) built infrastructure for distressed assets ("DA") resolution in Brazil.

- Access to Finance. The Project will continue to facilitate the normalization of obligations of households and SMEs, preventing a large number of them from losing their assets, regaining access to formal credit, and preserving jobs.
