Project Description

According to IFC website, Motoractive IFN S.A. is the eighth largest leasing company in Romania with an estimated market share of 4.6 percent as at December 2016. The proposed project is a senior loan of up to EUR5.5 million to Garanti Leasing, for on-lending to women-controlled small and medium enterprises (SMEs). The proposed investment is consistent with IFC’s strategy in Romania and would help a good existing IFC client to expand its SME reach with focus on women owned businesses, moreover, it would strengthen the relationship with Garanti group.

The main objectives of the project are to (i) help respond to the critical term funding gap for SMEs as Garanti Leasing's customer base is predominantly SME's; (ii) alleviate the difficulty of SMEs in accessing bank financing by using asset-secured lease finance; and, (iii) generate employment through resultant growth of SMEs and investment in productive assets, with a focus on women owned SMEs.

Investment Description

- International Finance Corporation (IFC)

Garanti Leasing is 100% owned by Turkyie Garanti Bankasi A.S., the second largest bank in Turkey, through two holding companies based in the Kingdom of the Netherlands: G Netherlands B.V., with (99.99997%) shareholding and Garanti Holding B.V. (0.00003%). In turn, Turkyie Garanti Bankasi A.S. is controlled by two entities: Banco Vizcaya Argentina (BBVA), the second largest bank in Kingdom of Spain with global operations, which has a share of 39.9% and Dogus Holding, a Turkish holding group, with a 10.0% stake.

Financial Intermediary

Financial Intermediary: A commercial bank or financial institution that receives funds from a development bank. A financial intermediary then lends these funds to their clients (private actors) in the form of loans, bonds, guarantees and equity shares. Financial intermediaries include insurance, pension and equity funds. The direct financial relationship is between the development bank and the financial intermediary.

Private Actor Relationship

There is often limited information publicly available about what development banks are funding through financial intermediaries. In 2021, the Early Warning System partnered with Oxfam International to incorporate information on high-risk projects being funded by financial intermediaries receiving funding from the International Finance Corporation (IFC) and the Dutch Development Bank (FMO).

The information listed below describes the relationship between the different private actors linked to high-risk sectors and subprojects of IFC and FMO's financial intermediary investments and/or the financial intermediary's parent companies made from 2017 through 2020, including any associated ring fences.

The database, however, does not explicitly or implicitly imply that IFC or FMO have material exposure to or are contractually or legally accountable to the sub-projects financed by their financial intermediaries or the financial intermediary's parent companies. It only shows a seemingly financial relationship among the different private actors, the financial intermediaries, and IFC or FMO.

ACCOUNTABILITY MECHANISM OF IFC

The Compliance Advisor Ombudsman (CAO) is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an IFC or MIGA- financed project. If you submit a complaint to the CAO, they may assist you in resolving a dispute with the company and/or investigate to assess whether the IFC is following its own policies and procedures for preventing harm to people or the environment. If you want to submit a complaint electronically, you can email the CAO at CAO@worldbankgroup.org. You can learn more about the CAO and how to file a complaint at http://www.cao-ombudsman.org/
