## Financial Intermediary

Financial Intermediary: A commercial bank or financial institution that receives funds from a development bank. Financial intermediaries include insurance, pension and equity funds. The direct financial relationship is between the development bank and the financial intermediary.

## Private Actor Relationship

There is often limited information publicly available about what development banks are funding through financial intermediaries. In 2021, the Early Warning System partnered with Oxfam International to incorporate information on high-risk projects being funded by financial intermediaries receiving funding from the International Finance Corporation (IFC) and the Dutch Development Bank (FMO).

The information listed below describes the relationship between the different private actors linked to high-risk sectors and subprojects of IFC and FMO's financial intermediary investments and/or the financial intermediary's parent companies made from 2017 through 2020, including any associated ring fences.

The database, however, does not explicitly or implicitly imply that IFC or FMO have material exposure to or are contractually or legally accountable to the sub-projects financed by their financial intermediaries or the financial intermediary's parent companies. It only shows a seemingly financial relationship among the different private actors, the financial intermediaries, and IFC or FMO.

## Private Actors Description

The FIDC is sponsored by Exten (a non-regulated finance company), responsible for the credit origination, underwriting and collection efforts. Exten presents a strong track record in the FIDC and invoice discounting spaces, having established one of the first securitization trusts in Brazil targeting SMEs in 2007.

Exten Corp. was incorporated as a holding company in the Cayman Islands in 2015 initially as Dunas Plus Corp. It has recently changed its name to Exten Corp, as part of a new branding exercise. It is owned by Joao Batista (26.7% participation), Paul Gilson (13.3% participation), Tom Cauchois and Alicia Noyola (26.7% participation), Accion Frontier Inclusion Fund, L.P. (16.6%), responsAbility Participations AG (16.6%) and Brean Capital LLC (.13%). It has five operational units: Dunas Plus Soluções (Origination, Collections and Master Servicer); Brazil Plus Investment Management; Brazil Plus Investimentos; Brazil Plus Participações (Securitization Vehicles Managers, Functionaries) and Supera Ltd. (Transformation, Technology), all of whom will be renamed to coordinate with the Exten name change.
