<b>Investment Type(s)</b>	Loan
<b>Investment Amount (USD)</b>	\$ 100.00 million
<b>Loan Amount (USD)</b>	\$ 100.00 million

---

## Project Description

According to the International Finance Corporation, this project consists in a Senior Secured Loan, a loan takes priority over other loans in repayment, to SabCapital S.A. de C.V., SOFOM, E.R. The loan will be used to grow its tourism (hotels) and green buildings portfolios in Mexico. The proposed project will support the entrance of Banco de Sabadell S.A. (Spain), through SabCapital, as a new participant in the Mexican financial system. The loan will be fully guaranteed by Sabadell Spain.

---

## Early Warning System Project Analysis

The International Finance Corporation has rated the project as FI-2, which according to their documents corresponds with a medium risk or category B project. It gives the following explanation for their rating:

This project has been categorized as FI-2 in accordance with IFC's Policy on Environmental and Social Sustainability based on the risk of the portfolio to which IFC will be exposed. As of March 2018, SabCapital lending to hotels represented 17.5% of their total loan portfolio. Most of SabCapital's hotel portfolio includes projects with potential limited adverse environmental or social (E&S) risks or impacts that can be readily addressed through mitigation measures. However, some hotels might be in environmentally and culturally sensitive areas, and require additional mitigation measures. As part of IFC's financing, SabCapital will be required to screen all its commercial loans against IFC Exclusion List, and to verify that loans to hotels and green buildings comply with the applicable E&S laws and, when applicable, with IFC Performance Standards.

---

## People Affected By This Project

The International Finance Corporation says that the project will have the following impacts:

- (i) Competitiveness: In the highly concentrated banking system in Mexico, the entrance of Sabadell Spain is expected to help foster higher competition in the corporate banking and project finance space, particularly in tourism (hotels) and green investments.
- (ii) Sustainability: The project will contribute on the development of sustainable finance in Mexico, with a special focus on tourism (hotels) and green buildings.

Additionally, the key potential environmental and social risks that the Corporation has identified are listed below:

- (i) worker's health and safety during construction
- (ii) conversion of and impacts to critical natural habitat
- (iii) unfair working conditions in the hospitality industry
- (iv) life and fire safety in buildings accessed by the public.

---

## Investment Description

- International Finance Corporation (IFC)

The investment will be in the form of a Senior Secured Loan.

## Financial Intermediary

Financial Intermediary: A commercial bank or financial institution that receives funds from a development bank. A financial intermediary then lends these funds to their clients (private actors) in the form of loans, bonds, guarantees and equity shares. Financial intermediaries include insurance, pension and equity funds. The direct financial relationship is between the development bank and the financial intermediary.

- [Sabadell Capital S.A. de C.v. SOFOM, S.A.U.](#) (Financial Intermediary)
- [BANCO SABADELL S.A. INSTITUCION DE BANCA MULTIPLE](#) (Financial Intermediary) **is owned by** [Banco de Sabadell](#) (Parent Company)

## Private Actor Relationship

There is often limited information publicly available about what development banks are funding through financial intermediaries. In 2021, the Early Warning System partnered with Oxfam International to incorporate information on high-risk projects being funded by financial intermediaries receiving funding from the International Finance Corporation (IFC) and the Dutch Development Bank (FMO).

The information listed below describes the relationship between the different private actors linked to high-risk sectors and subprojects of IFC and FMO's financial intermediary investments and/or the financial intermediary's parent companies made from 2017 through 2020, including any associated ring fences.

The database, however, does not explicitly or implicitly imply that IFC or FMO have material exposure to or are contractually or legally accountable to the sub-projects financed by their financial intermediaries or the financial intermediary's parent companies. It only shows a seemingly financial relationship among the different private actors, the financial intermediaries, and IFC or FMO.

An extended list of private actors is available [in a separate file](#).

## Private Actors Description

The International Finance Corporation lists the following description for the private actors involved in this project:

**Sponsor:** Sabadell Spain is the 4th largest Spanish financial institution, operating mainly in Spain, UK and the Americas. The group is listed in the IBEX 35 stock market in Spain.

**Partner:** SabCapital is a fully owned subsidiary of Sabadell Spain. It started operations in Mexico in April 2014 as a SOFOM, a non-bank financial institution (non-deposit taking), focusing on corporate lending in sectors such as tourism, real estate, energy, industry, among others.

## Contact Information

### ACCOUNTABILITY MECHANISM OF IFC

The Compliance Advisor Ombudsman (CAO) is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an IFC or MIGA- financed project. If you submit a complaint to the CAO, they may assist you in resolving a dispute with the company and/or investigate to assess whether the IFC is following its own policies and procedures for preventing harm to people or the environment. If you want to submit a complaint electronically, you can email the CAO at [CAO@worldbankgroup.org](mailto:CAO@worldbankgroup.org). You can learn more about the CAO and how to file a complaint at <http://www.cao-ombudsman.org/>
