Project Description

According to IFC website, the Project consists of an investment up to GEL 200 million (not exceeding US\$ 100 million equivalent) in Joint Stock Company Bank of Georgia. The purpose of the proposed IFC investment is to support and expand the Bank's lending program to small and medium enterprises in Georgia and at least 25 percent of proceeds will support the Bank's lending operations to women-owned businesses.

People Affected By This Project

The Project would support one of the leading private banks having a good geographical coverage in SME segment. The proceeds will be used for financing SMEs and women-owned SMEs, supporting their access to long term local currency funding. IFC's funding would help Bank of Georgia in responding to its clients' long-term funding needs while matching maturities more effectively. The Project would strengthen IFC's role of increasing access to finance for women by partnering with a financially sustainable bank by supporting it in areas of strategic interest such as banking on women.
